Advanced POS Solution

Perfect Solution SPS-2000 Easy, Fast, and Reliable

Perfect Solution
SPS-2000

The elegant appearance and high performance of the SPS-2000 will satisfy the high demands of today's customers. With convenient Retail and Hospitality features, the SPS-2000 is the perfect choice for many different applications, while remaining flexible and easy to use.

SAM4S
| www.sam4s.com |

A silver POS terminal with a receipt printer and a receipt emerging. The terminal is shown from a low angle, highlighting its sleek, modern design. The background is dark with a grid pattern.

Experience the next generation of POS with the **SPS-2000**

The Perfect POS Solution

ERR PWR

Speedy, Silent, Smart, Safe...SAM4S

SPS-2000

The SAM4S SPS-2000 features advanced touch screen POS technology built with the advantages of a modern ECR. Preloaded with stable, proven and flexible software, the SPS-2000 will start up quickly, run reliably and recover quickly in case of power interruption.

Perfect Solution SPS-2000

Touch Screen

12.1" XGA Touch Screen TFT LCD Monitor

The SPS-2000 provides more vivid color with high resolution (1024*768). The super-bright TFT LCD touch screen can be viewed from almost any angle and the monitor angle is adjustable from 22° to 77°.

High Performance Memory

The SPS-2000 comes with 64MB standard SDRAM and 64MB NAND on-board flash memory. Memory can be flexibly allocated to support large menus, check files, customer reports and employee time/attendance files.

Powerful Interface & Flexible Peripherals

The SPS-2000 offers connectivity and capabilities with 6 serial ports and 2 USB interfaces.

SD & MMC Card Slot

interface

MCR

Unique and Elegant Style

The compact and elegant SPS-2000 is an attractive addition to any business environment. With its small footprint and no single point of failure reliability, the SPS-2000 is a smart choice.

Customer Display

Clerk i-button

The SPS-2000 delivers features and high performance from an attractive and stable touch screen solution.
